-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-3, 5-7, 9-11, 13 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Lyes.

Lyes discloses a catch basin connected to a riser having a housing (14) with a debris trap (10) supported by a shoulder (19) of the housing, where the housing has a tapered configuration, and with a grated cover (26) as claimed.

3. Claims 4, 8 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lyes in view of Loffler.

Claims 4, 8 and 12 differ from Lyes in recitation of the trap having apertures at the rim. It is known to place apertures in the rim of a trap, as exemplified by Loffler (58). It would therefore have been obvious for one skilled in the art to place the

apertures at the rim of the trap of Lyes, instead of in a central portion, as a result effective variable, depending on how deep one wishes to make the trap water level.

4. Claims 1-3, 5, 9-11 and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Vaudell.

Vaudell discloses a catch basin connected to a riser having a housing (13) with a debris trap (12), with an aperture for water (the opening of the pipe 11), where the housing has a tapered configuration, and with a grated cover (24) as claimed.

5. Claims 1, 3, 5 and 10 are rejected under 35 U.S.C. 102(b) as being anticipated by McGhee.

McGhee discloses a catch basin connected to a riser having a housing (11) with a debris trap (12), with an aperture for water (33), and with a grated cover (13) as claimed.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Other references of interest include Rogers, Su, Houk, Arneson, and Schodde.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christopher Upton whose telephone number is 571-272-1169. The examiner can normally be reached on 7:30-5:00, off every other Monday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Duane Smith can be reached on 571-272-1166. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
